Someone help me out.Can anyone give the address of a mod which enables multiplayer games in single player as i have a modem connection,which, not only is slow but will cost me a lot for playing online.I enjoyed the multiplayer tutorial, but i got bored by the only map and AI that don't follow orders.

Nothing different from online then

You can get more AI maps from Dante Mod Exchange (<http://modx.the-pitts.net/showthread.php?s=&threadid=254>).
