well... i had clanwar with rikkie today of our TFF clan, and we almost won from !MOS! and then they kicked us.

advisement: never fight in a clanwar with the !MOS! clan, they will kick you if you win

(Read the Topic of Rikkie, he will give some details).

I will tell what happend

Me and stoeltjuh were in the chatbox this evening and we decided to challenge the mos clan on a 2 vs 2 fight. Windfight and Fastnoob played for the mosclan. They gave us the password for their server and we joined. The game started and we really going well and after a while we destroyed the advanced guard tower. they tried everything to win but we could hold out of our base. Then when we wasted the ref and they were out of creds, suddenly i got out of the game and a message sad: you have been kicked out of the game. My buddy got kicked out 2 after 10 seconds.

So i went back to the chatbox and there was windfight. He told me it was a bug and that he got kicked out to.

I know he is a respected player so that's why i am asking you guys: is there such a bug that you lose connection and it sais you have been kicked out of the game.

I think it is strange because my buddy should have left the game at the same time when that bug really existed but he left 10 seconds later. 10 second to type in /kick stoeltjuh ???

We are form the TFF clan. A starting clan

Yeah, I play renegade very very much but i have never seen this bug happening to me. So it would be very much coincidence when this bug happens to me now, at the end of a winning clan war. and not even at the same time with 2 people.

One out of like 100 times it will kick people, but only one, Mos cheats so dont let them host. My way of revenge is get on fake names play them on your server and let them start to win and just kick them too

!MOS! are definitely no cheaters, i know them all as fair players. During a clanwar of GF (my clan) vs. !MOS! some of us got kicked, but we figured out that it was a WOL-Problem, that random Players got kicked in that period.

Windfight and me were accused right?

@ Homey

U never played us, so shut up and don't say things u can't know.

@ Rikkie

I remember the game. I can just tell u that we never cheat. We don't know any cheats and we didn't kick u. It was a bug. Windfight was kicked, too. That's the truth. After his kick, i also lost the connection to the game. We had problems with WOL. U have to believe us. I think it's very fair of u, that u ask the others about such a bug and not just accuse us like Homey did.

To the server i can just say, that we make it sometimes public. But we can't do it so often, because it's very expensive because of the higher traffic. We are happy, that we can pay thsi server.

Cu Fastnoob.

It remains strange that when I say in the chat: Damn that clan they kicked us, everybody starts saying thinks like: lol u played mos or haha Mos always kicks players when they lose or things like that. Or on n00bstories.com where everybody complains when somebody doesn't has a picture but when someone reported you 2 everyone said: No picture needed, just give this guy a 10, Mos always kicks ppl out of the game, happend to us once 2.

I don't know, who is telling this shit.

But i don't know any situation, where we closed down. If the other clan is better and beat us we accept this. Just ask @TBS@ or R-T-K or FUS!ON.

Renegade has been befallen by n00bs  
they come only to kick us when they are losing.

Thats why i don't play clan games anymore, i got kicked for nuking the agt on field once, and i haven't played them since, moronic idiots can't stand losing these days

It doesn't matter if he hasn't played you, he's got facts. Therefore there is no point in saying he hasn't played you, you are still looked at as guilty. :rolleyes:

Definition of smurfs: Smurfs are people who use fake names to play other clans to

a: piss them off

b: only way the opposing clan will play them; dodgers

c: so just screw around not affecting their ranks

You fall under the category of A and B. We've smurfed you, you shut down when we were winning, when we screwed around the server was fine...

Explain that captain retardo.
