First, lemme explain how it all started.

A while back, I joined a clan to have a clan match with a bunch of racists who were flaming people in the GDI Chat Room. I joined, we kicked their asses, and I totally forgot I was even in a clan. Now, I can't seem to leave it, no matter how hard I try. I tried to click on Leave Clan in WOL, but it says my name isn't even in the clan. I tried looking up the clan thru the rank (515) but it turns out the ranks only go to 500!

Can anybody help me? I want to be able to join other clans :S

i had the same problem... all you need to do is search for your new clan and then just log in.
