LMFAO
To play with helicopters play City_Flying, Walls_Flying, or Glacier_Flying which were included in the patches :rolleyes:

Ohhh so thats how u use the copters, ok, is that just the apache? or the orca also? And i finally did find a seemingly great mod, but i cant get it to work! I extracted the files to the Data folder, but all it does is change the names of a couple people, i was pissed! and this was Tiberian evolution x10 and x4, can neone tell me if i did sumthing wrong?

Here are the ones I'm waiting for:

Ren Alert (My favorite)

Reborn

Dead 6

WW2:Warpath

I don't know any of the others because I havn't found their website.

Um.... if you Didn't know about the MP maps that allow you to use the orca and the apache, maybe you should explore the WW maps a bit more before you go screeming " i cant find ne, it

stinks! They all suck".

Download the latest version of the Tiberian evolution find it at the C&C Ammo archives --> <http://www.planetcnc.com/ammo/> and there is more than just a few names changed.... have even tried to purchase the vechiles? that would explain why you didn't know about the orcas & apaches...

if you want an apache on other maps then all you have to do is copy and paste this to note pad then save it as cnc_c130drop then put it in data, heres what you paste:

```
-1 Create_Object, 1, "V_NOD_cargop_sm"  
-1 Play_Animation, 1, "V_NOD_cargop_sm.M_cargo-drop_sm", 0  
-1 Play_Audio, "C130_IDLE_02", 1, "Cargo"  
-360 Destroy_Object, 1
```

```
-1 Attach_To_Bone, 3, 1, "Cargo"  
-180 Attach_To_Bone, 3, -1, "Cargo"  
-900 Attach_Script, 3, "M02_PLAYER_VEHICLE", ""
```

```
-300 Create_Real_Object, 4, "CnC_Nod_Apache"
```

its very simple,when you buy a vehicle it will drop an apache on the air strip after the vehicle you bought, note: only works as nod.

and if you are the host
