Its true (i think)... a topic like this was on a few months ago, jsut before i left the forums.

Try to think of some things that might happan to YOU if you play renegade to long...

Here are some to get you started.

You play renegade to much when:

-You walk on grass with a wet suit becouse you fair tiberium poisoning.

-Cut you finger and ask a man with a yellow hard hat to repair you.

-You call every bald guy Kane.

-You keep your hand up all day becouse its the hand of Nod (or NOD, whatever)

You guys got some more??

Last year I think I played way too much Renegade. i was walking down the street and heard, perfectly clear "GDI Power Plant under attack" it sounded so real, I turned round and for about 2 seconds had no idea where I was....

Really freaky

-You call every bald guy Kane.

-You keep your hand up all day because its the hand of Nod (or NOD, whatever)

You guys got some more??

Hehehehehe.... one of my favorite ones was this one:

You've been playing Renegade too much....

....if you ride your riding lawnmower through your neighbor's cabbage patch garden saying, "I'm harvesting tiberian."

We have a local "stump dump" where I get rid of tree branches, and stumps, and along the way is a closed Factory.

As my 12 year old daughter and I are riding along to go there with a load of brush, we pass the factory and she says, "Look dad, there's the GDI barracks!"

Surer than dog poop, there's a tin storage facility that is painted the SAME color, and is shaped exactly the same.

Now, that's when you know you and your family know far too much about this game.

- Your dreams involve being chewed out by Locke for stupid things you did that day.
 - You go into a car dealership and ask about the Nod Buggy.
 - Your entire vocabulary consist of "Affirmative", "Cover Me", "Move Out", "Watch where you're pointing that", "I got a present for ya!" etc, etc, etc...
 - You watch war movies and wonder why the good guys don't just plant an Ion Cannon Beacon and be done with it already!
 - You go to military hardware websites looking for information on Mammoth Tanks and Stealth Tanks.
-

When you hear "boink" on a cartoon and automatically turn on your computer.

Blkwasp and I will be driving to work and find ourselves looking for a keyboard to hit control-6 or find that some trucks look like MRLS it's wierd and scarry!

We also have been known to say, in unison, " Wow, that was just like Renegade"

LOLI always loved this thread.

Posted by [L3f7H4nd3d](#) on Fri, 25 Jul 2003 20:03:36 GMT

You know that you've played too much Renegade when...

1. You start calling your mom commander.
2. You walk into grass and start mutating.
3. You start blaming everyday mistakes on lag.
4. You put any game CD in your comp and expect it to say "I've got a present for 'ya."
5. You want to become a cook or first mate so you can get a cool Flame thrower.
6. You think all pistols have unlimited ammo.
7. You think your TV is a PT.
8. You are paranoid of driving in cars, because there are gunners everywhere!
9. You own a grenade launcher.
10. You make sure you don't throw stones in a glass house without proper protection.
11. You wonder what would happen if <i>you</i> became a visceroid.
12. You wonder what Eva looks like.
13. You wonder what voice Delphi does in the game.
14. Every time it rains you hide in your basement for three days.
15. You begin driving on the sidewalk exclusively, waiting to hear a gratifying "boink" noise.
16. Every sentence you say ends with "Hail Kane!"
17. Every time you there is a terrorist attack, you call up the Pentagon telling them to do something about those Nod Black Hand Terrorists!
18. Every missing person you hear about becomes a member of the dead - 6, 7, 8, 9...
19. Every trip to the mall becomes a tension filled foray into sniper territory.
20. Routine skirmishes around the world become epic battles for World domination.
21. Every time you catch a cold you try and convince doctors that it is caused by a green colored alien substance that breeds massive blobs that will hunt them down and render them into component compounds.
22. Whenever someone badmouths the UN you tell your freinds that it was Nod propaganda.
23. You saw a picture of a cute little turtle with two heads once: Tiberium mutation.
24. You walk up to every bald guy with a goatee and ask him how project re-genesis is progressing.
25. Everytime it snows you mumble something about "fallout" and hide in a bomb shelter.
26. Every time a mobile phone goes off you run away screaming "DEFUSE THAT!"
27. You refuse to go outside the house for fear of getting run over by a stealth tank.
28. You wish you could find the PT to buy yourself another car.
29. You either walk, or run, but never anything else.
30. You find it difficult to drive when you're not allowed to hit anything.
31. You wait for your car to warp back behind that stop sign.
32. You can't figure out why the money in your wallet never periodically increases.
33. You keep earing the humvee sound when driving.
34. When your wife complains about you yelling "PROTECT THE HARVESTER" in your sleep.
35. You wonder why it took so many soldiers to defeat the Taliban, when Havoc can do it alone.
36. You have plans to build an Obelisk of Light
37. You actually build one
38. You dont understand why key government buildings aren't surrounded by proximity mines for safety.
39. You've taken two metal pipes,taped then to a metal salad bowl, and call it a repair gun.

40. Whenever you are injured you say "I need repairs!" about 12 times rapidfire.
41. You get frustrated that Sakura has an unlisted phone number.
41. You wonder why Wal-Mart doesn't carry personal Ion Cannons in their hunting weapons section.
42. Your girlfriend wrecks your car, tells you a stealth tank ran over her, and you believe what she says.
43. You've got a library just like in the chateau, Tiberium tube and all.
44. You've figured out the unknown elements in Tiberium via scientific experimentation.
45. You think that the mutant Petrova is hot.
46. Your sole purpose of showing up for chemistry lab is to try to create tiberium.
47. When you stop worrying about mirage tanks and start worrying about stealth tanks.
48. When ever you walk/run you have an odd sliding effect.
49. After you lose your refinery (lost your job, from playing Renegade too much) you start repairing your house in hopes that it will earn you enough money to pay your ISP.
50. You see your best friend and say "get in the vehicle!"
51. You kill someone in real life and wait for the boink noise.
52. When you think you've fallen into the blue world beneath when in all actuality, you're drowning.
53. When driving, and someone cuts you off, or annoys you really bad, all you can think about is "BOINK"!!!
54. You begin to say information about tiberium at school, especially in economics class.. "Nod tiberium countings now account for over half of the worlds known supply !"
55. You see large windows that are just begging to be shot out!
56. You try to change the skin on your cat.
57. You wonder why the US Troops in Afghanistan can't find the Hand of NOD.
58. You go to the airport to pick up your new buggy.
59. You're surprised that the guy down the road wants \$1500 for his old Sedan, not \$300, and you politely tell him that "Why for that price I could buy myself a mammoth tank..."
60. When someone gets into your car before you, you say "get out of the vehicle! get out of the vehicle! get out of the vehicle!"
61. When you set proximity mines outside your office to keep the boss out.
62. When you go into an elevator and look for the 'e' key.
63. All of the women you know speak in male voices.
64. When in crowds, you yell "Dont get in my way" over and over.
65. When your at the airport you try to use the flight times screen to purchase vehicles.
66. You only use 30 different phrases when talking to people.
67. You call a minivan an APC.
68. When you see a picture of John Romero's humvee, you wonder where the mounted machine gun is and who was that awful skinner that made it yellow!
69. You wonder when the government will release a patch so everyone can buy planes and helicopters.
70. You buy clothes for exactly 175, 225, 250, 350, 400, 450, and 1000 dollars in order to upgrade your personality and special abilities.
71. You dont press Q for anyone who is in your car because you want to gun.
72. Whenever some one leaves their car in the driveway to go back into their house you assume they will take too long to purchase something so you steal their car and blow it up right down the street, to prevent a stealth black hand from stealing it!
73. Anyone who wears red and black clothing is a potential target.

74. When you expect to see typed chat on the far top left of your view.
 75. You wonder why you dont hear "keep it coming" every time you use your credit card.
 76. Everytime it starts raining you scream "FIND THAT BEACON!"
 77. You tell the judge at your trial that you're not a terrorist bomber, you were just trying to destroy the Hand of Nod.
 78. You explain to the cop that pulls you over for speeding that you were rushing to the enemy base to place a beacon because the time was almost up.
 79. You replace your car horn with "get out of my way!" to get through traffic faster.
 80. You see a car run over a pedestrian and you think, "hey, when did they add the blood patch?"
 81. You've constructed an ion cannon becaon out of your old vcr, a toaster and an old TV remote.

- You find yourself saying LOL at the start of every sentence.
 - You finally discover why the "Walk" button is useful.
 - You lock your car when you pump gas because you're afraid a SBH might commendeer it.
 - You become so lazy that you don't feel like holding down "W" and you move to the up arrow.
 - After you see someone on TV get shot, you immediately think to reload.
 - The "A" "S" "W" and "D" keys are completely white.
 - You discover how useful the radar is.
 - You go through 3 mouses a month.
 - You find strategy in cops and robbers.
-

One of my friends is cheap and he puts plastic kitchen wrap on his keyboard to keep it clean.

ok... thats the first time i ever heard of anyone actually using that on a personal computer...

i have 16 exactly the same black ergonomic keyboards in my closet (got them for a deal at a computer show) one goes out, it goes in the trash, pull out a new one wala...

so... thats just nuts...

btw, i go through about 4 keyboards a year, is that bad?

One of my friends is cheap and he puts plastic kitchen wrap on his keyboard to keep it clean.

Where do u get those plastic covers??

Well I buy them at this computer store around my house. Yjeu cosy like \$5 dollars each. So when my keyboard cover become dirty and and black where you can see the letters on the keys. I just go and get me a new one and throw the old one away. Usually i change keyboard covers every 5 to 6 months. So its a very good price cause they last a long time.

z310John Shaft Jr.Thats one of the reason why I have one of those clear plastic keyboard covers on my keyboard. To keep the keys clean and not have the letters or numbers rub off.

One of my friends is cheap and he puts plastic kitchen wrap on his keyboard to keep it clean.

Where do u get those plastic covers??

its those ceran wraps they are clear and kinda thin and sticky if your wet and the case is long and made of carton

i think i didnt say that right :rolleyes: :rolleyes:

i think i didnt say that right

Infinintoh ya heres some i forgot:

i built my self 2 flamethrower one thats hand held the other is a modified persor washer and i have planes for a small remot air plane thats drops bombs (target: my school and the tempel of nod)

and what dose btw mean????

Wanna know how 2 make the explosive 4 the plane?? This is for informational purposes u can not blame me for what you, if is u use this u agree u will not hold me responsible(got It???)

Potassium chlorate is an extremely volatile explosive compound, and has been used in the past as the main explosive filler in grenades, land mines, and mortar rounds by such countries as France and Germany. Common household bleach contains a small amount of potassium chlorate, which can be extracted by the procedure that follows.

First off, you must obtain:

- 1.A heat source (hot plate, stove, etc.)
- 2.A hydrometer, or battery hydrometer
- 3.A large Pyrex, or enameled steel container (to weigh chemicals)
- 4.Potassium chloride(sold as a salt substitute at health and nutrition stores)

Take one gallon of bleach, place it in the container, and begin heating it. While this solution heats, weigh out 63 grams of potassium chloride and add this to the bleach being heated. Constantly check the solution being heated with the hydrometer, and boil until you get a reading of 1.3. If

using a battery hydrometer, boil until you read a FULL charge.

Take the solution and allow it to cool in a refrigerator until it is between room temperature and before. Filter and save the crystals.

Take the crystals that have been saved, and mix them with distilled water in the following proportions: 56 grams per 100 milliliters distilled water. Heat this solution until it boils and allow to cool. Filter the solution and save the crystals that form upon cooling. This process of purification is called "fractional crystallization". These crystals should be relatively pure potassium chlorate.

Powder these to the consistency of face powder, and heat gently to drive off all moisture.

Now, melt five parts Vaseline with five parts wax. Dissolve this in white gasoline (camp stove gasoline), and pour this liquid on 90 parts potassium chlorate (the powdered crystals from above) into a plastic bowl. Knead this liquid into the potassium chlorate until intimately mixed. Allow all gasoline to evaporate.

Finally, place this explosive into a cool, dry place. Avoid friction, sulfur, sulfides, and phosphorous compounds. This explosive is best molded to the desired shape and density of 1.3 grams in a cube and dipped in wax until water proof. These block type charges guarantee the highest detonation velocity. Also, a blasting cap of at least a 3 grade must be used.

The presence of the afore mentioned compounds (sulfur, sulfides, etc.) results in mixtures that are or can become highly sensitive and will possibly decompose explosively while in storage. You should never store homemade explosives, and you must use EXTREME caution at all times.

:twisted: LOL

cool, thats saved me the trobel of going online and finding that (are you sure thats right CUZ IF ITS NOT!!!) i was think more in the relm of premade M80s like i use in my spud luanchers

mmmmm M80s

(edit): you know you have been playing renegade to long when:

you grow up to be a pyro technition and you go tell little kids how to make high explotives in there homes

too bad ill probibly never have the time to make that with out being discoverd and being thoughen in jail lol

parent: omg what are you doing!

kid: im just learning how to cook for you mommy

parent: oh how sweet, dont burn the house down

5 minets later BOOM!!!!!!

parent: omg what are you doing

kid: practising to put out house fires mommy

parent: oh how sweet...

Cool

Instead of making a high explosives how about just scaring people like this (got it off a anarchy web page)

Take a wet paper towel and pour a given amount of baking flour in the center. Then wrap it up and put on a rubber band to keep it together. When thrown it will fly well but when it hits, it covers the victim with the flower so you can tell them its antrax.

Tip. Put Green dye into it and say its radio active.

:twisted:

lol i like that but now if i did it youd get arrested even for jokeing, what a jip

wow i am reading how to make a proffeshinal H bomb in your home.

darn i think we kinda killed the thrend for "you know youv been playing renegade to long when..." thing

Infinintwow i am reading how to make a proffeshinal H bomb in your home.

Psssst...I bet it's fake

Honestly, if it was real, do you think any country in the world wouldn't have them? I mean, I think most countries can afford at least one \$100-\$2000 computer and internet access.

[View Forum Message](#) <> [Reply to Message](#)

well actully (with my knowlege of H bombs) is was pretty actret stuff but it was a little outdated; it

told you how to steal the Plutonium-239 or uranium-235 but now there actually guards there and the shipping stations. did you know you can buy it for 40 bucks a pound (thats 20% real U-235) thats real cheap for some one to build a bomb but then you have to have perify it and stuff but still.
