I like it it looks kool the idea of adding a few diffrent logos round the edge adds to the l33tness of the theme...

May not be flashy but looks kool 2 me.... wonder what it would be like with transparent background?

I never let my freinds buy French neither

Thank You

I thought about making one w/ a transparent back ground too but that would take some more work
Maybe I'll do it another day

Yep I love it too, its silent compared to my old fan. My old fan would run at 5000 RPM and was about 55 dBa! That sucker was loud.
