There are rumours floating around WOL that EA might actually be working on a patch...

I don't know, EA patching a game that won't make them any more money?

But something has been going on, for instance the Battle Clan Admin page no longer reports "EMPEROR: BATTLE FOR DUNE! CREA YOUR OWN RED ALERT 2 CLAN! WOOT" now it properly displays "Renegade: Battle Clan Admin"

hmmm... not like EA to care for their fans...

I wonder if it's possible for the board to automatically disable the signature of a person who posts more than once in the same thread. That way, we won't have the page cluttered with signatures.
