I'm working on a mod called Regenesis. It's a total conversion mod but we're in desperate need of some staff.

We need 1 modeller and 1 skinner.

The site URL is <http://dynamic6.gamespy.com/~regenesis/> but I'm still working on it.

The sites nice except for the white text over green-white-green background in the block titles, and the screwed up layout.

I'm sure you can find a couple people who are willing to join you here.

I've got to change the border colours but you get the general idea

I'll get the storyline link up right now
