I posted this in the mod forum, since it is a mod - Just not a Renegade one.

If any of you have Jedi Knight 2, I highly recommend downloading Jake Keating's Colosseum mod. I just beat it, and it's short, but very, very well designed. It's the best mod I've seen in a long time.

You can find it, as well as some screenshots, here.

Makes me want to make a Colosseum map for Renegade...

It might just be me having not played JK2 in awhile, but I had a hell of a time killing the three brothers...
