I was kicked out of BC serv 4 because I asked why they didn't have their ladder working, and then later my bro was repairing me, also he was on the other team, and I got kicked again. LOL that is so gay. It's not my fault my bro repaired me now is it??

firstly our ladders are working fine, you just need to play 5 games to be on it.

and you were both kicked because it was obvious you were working together repairing each other on the enemy team.

Ohh ok so that fixes the ladder question I asked, but why was I kicked for askin that? and I was never repairing Lemur, he was the one repairing me it isn't my fault he repaired me, even though he was sitting right next to me, it wasn't my fault that he was repairing me.
