Whenever it doesn't appear by ONLY your name, I think it's either a mistake, or an indicator if the people who died with you at the end of the game...ie, as from a nuclear strike that killed you while trying to disarm it.

i don't think that's true because it is ALWAYS next to my name in every end of game,i think it must have had something to do with the non working ladder

It appears some times in your name, but sometimes appears 4 or 5 guys from or :gdi: marked with stars.

For this time, I agree with the post of YSLMuffins.

If any developer, maker or guy that knows the game comes here, answer me, plz.

I think that it is meant to only appear by your name so you can easily find yourself on the rankings, but for some reason occasionally many are listed with stars... it's a mystery!
