my site, <http://www.generalselite.com> wants to expand to contain all of the cncseries. I am asking if any of you know how basic HTML and who is willing to do the renegade information parts of the site.

If interested let me know

As much as you would enjoy that, no thanks

The last guy that said that to me thought I was serious when I said yes... He still had his pants up and when I said I was ready, I kicked him in the nutz as hard as I could... He started crying like a baby, and this kid is a ripped hockey player, first time anyone has seen him cry... Kinda funny

Renegade sites are dying. The game is. Cheaters are taking over. What Westwood worked hard on. A "Firewall" is being extinguished by Cheaters.
Its dying. We need a good Renegade site. But there is none. RenRealm, The site that was my homepage, gone.

Its dead. Unless the cheating program works.

ZerkGenerals Elite is not associated with EA, EAP, or WW in any way

You have screenshots of the game, You talk about the game. Why does it say that?

Not to be pessimistic or anything, but starting a fansite for a game that's over a year and a half old is really a waste of time. All of the Renegade-only fansites are gone except n00bstories, and even that will soon be changing, in a manner of speaking.

Read what you just wrote: All the renegade only sites are gone..

I dont plan on doing tibsun or anything like that, hopefully my site can keep renny alive just a little bit longer.
