:rolleyes: I was just playing a game of Renegade today on some server that I rarely go on. 24 people, and it was pretty full most of the time.

Anyway, I'm on GDI, map is C&C_Field, and I decide to get a Havoc to snipe their pesky Raveshaw's and SBH's that are firing at our tanks.

So I go into the bunker on the hill closest to my base, and I start sniping as normal. To my surprise I get a bunch of kills; 5 or 6 before I get sniped myself (didn't die though) and had to go get refilled.

I come back, only to find two sakura's have taken my sweet sniping spot. I zoom in, and they obviously don't see me. Shoot both of them in the head right in a row, and they call me a cheater.

I just ignored them and proceeded to eliminate as many infantry as humanly possible. At the end of the game I had 38 kills, or maybe it was 37.

Anyways, people who can't accept the fact that I just jacked them in the face really should be shot again.

Oh come-on, I can get 37 kills and I cant shoot for shit, yes they are with an apc and it is because I spend all my time looking for people to run over, but still its no reason to bitch about being called a cheater. It happens, get over it.
