but... he sied he reinstalled it "noumourus" times...

you know i just got done reading a post where you seid i was stupid mike

your missing the dll, you should probibly try re downloading it or try finding that dll somewhere and get it

Colonel Jax I downloaded and installed Ren X but it says "A required file renderutil.Dll was not found. I reinstalled it noumourus times but it still says the same thing. What should I do.

ok, im wondering if you get this message when you try to open a gmax file?

open up the RenX shortcut, then open up the .gmax.
