What? He's right, aprime is becoming really annoying with his pointless posts and 'having a go' at everyone.

Either post something constructive or fuck off.

Lets straighten some things out.

1.Aprime IS an asshole.

2.Did you see anything in the game? People moving around? Maybe a MOTD? What you describe usually happens to me when my computer is asking slow, and takes a long time to load Renegade. If it takes more than an X amount of time, then it autokicks you. I just restart my comp and it works fine.
