Ah. Nifty, thanks.

I kind of figured he would win. Brute force usually does.

My favorite "Brute force vs. Intellect" movie scene was from a Steven Seagal flick. the intellectual madman is controllling a satellite via his laptop, and screams something about how he is the only one who knows the code, and can send the signal to stop the killer satellite or whatever, and Steven shoots him through the computer.

KIRBY098Ah. Nifty, thanks.

My favorite "Brute force vs. Intellect" movie scene was from a Steven Seagal flick. the intellectual madman is controllling a satellite via his laptop, and screams something about how he is the only one who knows the code, and can send the signal to stop the killer satellite or whatever, and

Steven shoots him through the computer.

That was Under Siege 2: Dark Territory. I love that movie Kirby. I watch it everytime it comes on. Steven Segal plays a bad ass Navy SEAL in that movie.

I love when he fights the guy. Cause you know Steven Segal is one of my favorite Martial Artist. I love his Hapkido Martial Arts style fighting.

Anyway, always been a big fan of Both Freddy and Jason. Saw all thier movies but have not seen Freddy vs Jason yet. Is the movie worth seeing? Is Freddy still funny when he kills someone?

hareman

And anyway they would both get their ass kicked by an AlienMaybe.....well Jason might be able to take an Alien 1vs1 and maybe live to tell about it (assuming the alien doesn't eat him) but Freddy could take the form of one and fight back that way ...but a Predator would completely gangsta rape all of the above....especially an Alien.

But anywho....Freddys not really that funny anymore only because by todays standards its just pointless what he does. Now all we need is Mike Myers vs. Jason. Jason is my fav. killer but Mike Myers Halloween are my favorite set of scary movies (I still think Resurrection was the best one).....I wonder who would win?

Pros for Mike:

-Stealthy (hangs from stuff then drops down from behind and wacks you in the head)

- Knows how to fist fight and take an ass kicking
- Stalks his prey and plans out his attacks
- Super Human Strength
- Killed Jaimi Lee Curtis (god blesS) :twisted:

Cons for Mike:

- If his plans dont work the first time he wont get the kill
- Too slow
- Cant regrow himself if he loses a body part.
- Got his ass kicked by Busta Rhymes

Pros for Jason

- Super Human Strength
- Can reform himself even after losing a limb (he's like a zombie basically and if you dont believe this to its fullest extent try paying close attention to that crappy movie Jason X)
- Machette can go through virtually anything that he hacks at
- Has no regard for the human life
- Knows how to defend himself if being attacked melee style
- Will use all sorts of weapons to kill someone (he once used one naked chick in a sleeping bag to kill another naked chick in a sleeping bag....once again a reference from that craphole known as Jason X)

Cons for Jason

- Slow (faster then Myers though)
- Extremely stupid
- Easily distracted from his main objective
- Takes a little longer then Myers to recover from a beat-down
- Jason X

My Fight.

Jason would be hacking teenagers when he would follow one into a house and when he walked through a door Mike Myers would lower himself from a pipe above Jason. He would stab Jason in the back but Jason would quickly turn around and chop off Myers head.....story over. Cant you see which one I like better? Then DBB enters the room with a .30-06 at close range to Jason's head and blasts him away.....whos the best now

Awwwww.... now Hareman is ashamed of me.

And why would you bring up Alien anyway. After watching all the movies and reading all the comic books, and playing all the videogames (PC, arcade and console) EVERYBODY KNOWS that the MARINE rules over the Alien. Hell the MARINE rules over the Predator. Not to mention the Aliens cannot mess with Sigourney Weaver. She kicks their asses in every movie.

Speaking of which, the Aliens Vs. Predators movie and Alien 5 should be coming out soon...

I like horror movies with a plot, it's just the straight-out 100% slasher movies that I think are corny.

In Aliens, at least there was thought put into it. Facehuggers, Chestbusters...I don't, however, think that any series having as many movies as the Jason/Krueger series is capable of having much of a plot.

I like Sci-Fi-Horror movies because it's still more unique than just a plain slasher movie (Like Scream). If I wanted to see a bunch of murders in dark, poorly-lit areas, I'd go to New York

My God. Scream is not a Horror movie. it was more like a Funny slasher movie. Scream should

not even be in the same category of horror movies since it sucked so bad and was predictable.

Everyone knows the best horror movies are the old ones. Like anyone everyone saw the movie "The Exorcist". I saw that movie when I was 9 years old. That movie scared the shit out of me.

If you ask me, I don't think any slasher movie should be called a horror movie, because they're not scary.

The true horror movies are the ones that leave the scary part to your mind, the ones where you don't actually see the villain, and if you do it's only a glimpse.

I, personally, have never seen The Ring, but I know the premise of it and I've only met one person who said they weren't scared by it. (and they might've been lying)

To put it Penny Arcade style...

Shaft the Marine were hardcore....but the predator could easily take them out from afar. Just look at the game AVP(for pc) they could use there heat vision with that spear gun...or cloack and slash them. Nothing can take on a Predator incept for me and my .30-06 Unless there were a bunch of Marine.

Hehehehehe... I can take on a Predator. Did it all the time online. I'll just hide like a bitch until I see a predator run pass me and then put a Frag Grenade up its ass. Then laugh and run like hell.

But the PredAlien ruled over all.

Hmmmm.... Hellraiser. I forgot about that movie. Pinhead did rule.

Black Christmas (no its not an adult video) is by far the scariest movie of all time. Its very hard to find on DVD let alone VHS. Try to find it if you can....its extremely scary (I dont get scared by any movie but this movie freaked me out because you didn't expect what was going to happen). Supposedly this movie is what led to the Halloweens. I guess the killer from Black Christmas was supposed to be made into Mike Myers and say that he forget to kill one of the family members on that Christmas and so on or something weird like that....but instead they didn't want to ruin a great movie and kept Black Christmas as a stand alone and then made Halloween follow almost identically in its footsteps. I recommend it.

BTW....have you played that new Console AvP? I heard it sucks because they only have single player missions and no skirmishes! Whats up with that? Also did you play the Exp. to AvP2? I never got around to buying it....and noone plays that awesome game online anymore (ahh good times)

Yeah they still do. A lot of people play it online. It's just that the Single player mission for the Marine and Alien is out of control and the developers used the same thing over and over again. Predator missions are fine.

And nothing is hardly added to Multiplayer except for new maps. That's about it.
