Hello, I'm new.

Anyways, I was just have a few questions for who wants to answer them.

1. How many maps are in the mod RenAlert? Because I downloaded it, it looks sweet but I only have the one map, ass in the grass or something like that.
2. What mods are still active and are awaiting release?
3. Is the Reborn one still being made?

Alright I'm done. Thanks whoever answers that.

There are supposed to be three maps for Renalert.  
2 are being reworked.

Reborn is still on, just taking a bit.

"Ass in the grass"... hahahahaha... It's called "Keep Off The Grass" actually, no offense, I just found that really funny. Anyways:

1: The RenAlert "mod" you downloaded is only a beta from a few months back. The full public version is due out any day now, the team seems to be having trouble with their server. I THINK they're releasing with 4 maps, it's been a while since I checked.

2: Only other one I really know of is Reborn. They have some media out, the head of the team is taking some time off and hopes to release in a month or so. Most current news can be found here:

I'm creating the levels for Renegade Alert. I have three levels going on release date.

C&C\_DMIsles  
C&C\_ForestOfIllusion  
C&C\_Zama\_Flying

More will be added as we continue to work.

There are a few mods out there, as you know, Ren Alert is almost done. Reborn is getting near completion. WW2: Warpath and Modern Warfare are progressing nicely.

I am the leader of Modern Warfare, and you can check out our site at  
<http://modernwarfare.arm-ent.com>

Arm-ent is currently having some server problems, but it will be back up soon. (Hopefully. As long as Vlad stays)
