XCC Mixer http://xccu.sf.net - It can also convert the AUD files to WAV and play them for you.

Or... if you know the music file names... you can try looking them up on kazaa. I downloaded hell
march and many other from it.

BTW, does anyone know why XCC AV Player doesn't seem to be able to play some of Dune
2000's VQA cutscenes properly? It plays the cutscenes of all C&C's fine, but it quits when playing
Dune2k's cutscenes always at the same point in the cutscene. Copying the .vqa to the HD doesn't
work.
