There were all funny, but am I the only one to notice that FlyingFox put the C4 on a teammate's head? I've never understood the desire to blow up one's own team [aside from getting funny screen dumps, that is]. But I guess that's not true, either: I've occasionally wished my APC could run over a few choice n00bs...

Sneaking into the GDI Barracks on Complex, then once you're in, a hotwire mines the entrance: priceless (for GDI..)
