These were from my personal stash that I had from WS before it closed.

I gave them to Lion, and now everyone can see them.

I don't know, I would have wanted Renegade to be in a TS or RA1 setting, but since RA2 was so popular they thought they'd make more money off it. It probably would've been pretty good too.

We got pretty much everything that was finished in modart.zip, except some textures and that Soviet Barracks model.
