@ me comming back.

Anyway, you might remember, maybe not.... Oh well

I used to play renegade every day, I was addicted... then I formated my computer, and just never got arround to installing it. I've been thinking about it, so I come on the boards. All I see is stuff on cheats/aimbots/whatever.... What happened to the good ol days when stuff like this didn't exist =\

Hopefully there is still a Whine free server though...
