I've gotten over 200 kills in that lvl before(40 player game), it's easy, you don't need cheats. There was only 3 people with a score of over 100 in that game too, you could of just posted there names in the cheater thread.

Nope I joined that game later, if I am right it was a C&C Roleplay so people were just standing still..... note sure if it was roldeplay because I joined a few maps with those guys in, I saw the kills get past past 100 later in the game.

Notice it has unlimited time so really them 79 kills could have been done over hours, after I joined nobody was even good enough to be considered to have an aimbot.

Maybe somebody had the aimbot though? Truth is you can't be sure!
