Dowload version 1.25 and hold down shift after clicking the exe for XCC and it will load up without scanning the files.

or, if it is a non-westwood .mix or .pkg that it is getting stuck on, remove it from the directory and see if it happens, if not, send the .mix/.pkg to olaf, maybe he can do something about it, could be something wierd with that mix.

The latest version 1.26.
There is a fix for scanning files which are over 600 mb.

well seaman that link only has 1.22 as the latest...duh

I have 1.25 <http://xccu.sourceforge.net> scroll down a lil ways you'll see 1.25

Hit the shift key as soon as it opens it will stop the scan..i hit it a few times...just to make sure
