The tesla thing looks nice, but that laser tank looks like crap. The treads/tracks/whatever and that green square in the center doing nothing looks screwed up.

youm really think its good?hmmm....
ya the laser tanks , i loaded the wroung pic but i dint notic till now :rolleyes: i got ride of the green square thing (suppos to be a window). the green box (in the tesla tank model) i forgot to delete cuz i used it for sizeing. the bottom part looks like its hitting the ground becuse there is no ground to compare it with and its black but trust me it got plenty of clearence.
