The picture thing, in my signature, isn't showing any of my stats, why is that?

Maybe because:

1. You've got too much of a ghey signature to begin with.
 2. You haven't played Renegade enough for it to tally your ranking.
 3. You've got too much of a ghey signature to begin with.
 4. You've got too much of a ghey signature to begin with.
 5. You've got too much of a ghey signature to begin with.
 6. You've got too much of a ghey signature to begin with.
 7. You've got too much of a ghey signature to begin with.

It's the ranking script renevo are working on. You'll notice it's the same idea like the Planetside ones. I suppose it is still in development but it is a good idea. I wonder if it fetches the stats from WOL or from a ladder server tht are registered with the ladder kit Dante made?

Great job on Spamming ACK, I think it's because of not playing enough ladder games.

He didn't spam. He answered your question:
