DragonFgWhat really makes you made?

I am sure you mean "What really makes you mad?" no?

Things that make me mad are:

- 1) Cheaters,
- 2) People with no respect for others,
- 3) Power hungry mods.

Oh and posts that are hard to understand due to poor detail or mis-spelling, like mine .

BTW thats just waht makes me mad in Renegade related terms... now if you mean everyday life I  
could go on for ages.....

I was a normal soldier on Walls\_Flying. My health was full. I see an enemy normal soldier fall down the high place up the large rock in the middle. He has one sliver of health left. I begin to shoot him. He shoots back. He kills me!

(Note: I didn't think he used cheats)

Hmm, can I say ... nevermind. Well The thing that makes me mad is when you do a big tank rush

---

with like 7 tanks then you rush to the enemy base and then a few tanks collide and you get thrown off the map into blue hell - thats annoying. Also I'd have to say people who do base to base on Islands.

the one thing that pisses me off the most

in sniper games.. servers is fine.. no lag whatso ever ping of 90... then you get a guy join ( oh i could give a huge list of players like this)

they come in.. and start sniping.. and instantly as you see him.. he starts warping left to right so fast its impossible for my eyes to keep track..

i know when in scope mode.. you warop side to side.. but these people over do it.. normal people warp side to side. easy to hit.. but these people.. they going left to right.. at huge distances.. impossible to hit

then i die... again and again and again..

i never play these people when i meet them

Blatent attacks on anything I find worthwhile, or anyone where the flaming has no merit. Debating and flaming are fine, people just have to learn how to do it tactfully.

As well as, like Dante I hate people who are wrong and don't even know it, let alone accept it. As someone once said, When all else fails there's always delusion. (Which is why I engage in few flame wars, but the ones I do participate in are because of the rediculous "logic" peple use)

Hmmm I'd say I'm pretty neutral when it comes to most things such as my base being destroyed with dumbass teammates defending- I'd consider that my fault for joining and choosing to stay and find no reason to get angry. On the other hand I seem to see people abusing the radio hot keys with "Dont get in my way" and other useless noise. I suppose we know one or two of em here on the forums.

- People who can't take negative constructive criticism, advice, and honest opinions.
- People who think that saying anything less than completely positive comments (and for the most part, false) about other people's work (like models, skins, maps, etc.) ruins the community.
- People who start a flame with someone and then blame it on that person.
- People who can't admit when they're wrong, even though they've been proved wrong countless times spanning several pages. (You'll find at least one account of this in the politics forum.)
- People who resort to name calling, insulting, and the like when they lose in an argument.
- People who think that others cannot make comments on their work if they have never done something similar, like saying that if you aren't a mapper, then you can't make comments on his/her map, btw, they only do this when they get comments that aren't completely positive, Coincidence? (This is the same thing as saying, for example, that you cannot comment on a Governor unless you have been a Governor before.)

-Not having a broadband modem and connection.

-People who like Pepsi

-And when my damn Coca-Cola goes flat!!!

I was playing Mars on the The Pits this morning and I couldn't get out of the GDI Construction Yard after I went down to repair the MCT - I kept getting pushed back out of the lift when I tried to

---

get in. I typed in "I can't get out of the Con Yard" to which somebody replied "Good. Stay there. I've explained this so many times, don't you know what a readme is?" and basically started chewing me out for my "ignorance". I really lost my temper over that because I hadn't done anything wrong and I got flamed anyway. It's just a game... I don't understand why people get so angry over a game. Anyway, I had actually read the readme and there wasn't any mention of the Construction Yard. Grrr

WO ho ho here we go

You seem to think i lost an arguement. Remind us what the arguement was again? "yea ur an immutire racist who cant type" some arguement.

Ok so im immutire big deal

Ok so you think im racist who cares

Ok so i cant type thats all you can say

Now lets look at my arguement "you are all 20 30 40 year old loser - n00bs who still play computer games and you cant stand up to a 15 year old when he challenges you to that game."

You are 20 - 30 - 40 year old losers

You are n00bs

And you cant stand up to me 50 Prox Usmi or the rest of clanwars

Now tell me when i lost the arguement?

WO ho ho here we go

You seem to think i lost an arguement.

Not just an argument, nearly every argument that you participate in.

IceSword7

Remind us what the arguement was again? "yea ur an immutire racist who cant type" some arguement.

Ok so im immutire big deal

Ok so you think im racist who cares

Ok so i cant type thats all you can say

Notice I didn't refer to any specific argument. The fact that you keep bringing up this crap about your racism, shows that you know that it is completely true, and that you apparently care.

IceSword7Now lets look at my arguement "you are all 20 30 40 year old loser - n00bs who still play computer games and you cant stand up to a 15 year old when he challenges you to that game."

No, that's not an argument. That's your lame answer to any argument that you're not smart enough to come out on top, which is almost every one you participate in.

IceSword7

You are 20 - 30 - 40 year old losers

You are n00bs

And you cant stand up to me 50 Prox Usmi or the rest of clanwars

I'm 18. The average age for everyone on this board would be around 16-17, there are alot more minors on this board than adults.

So you're going to completely stop playing games within the next 3 years?

IceSword7Now tell me when i lost the arguement?

As soon as you started it.

Ok im racist whatever you like. In my school everyone says stuff like "no niggers" to a black kid just jokeing around, then if someone said "\*\*\*gasp\*\* are u racist" the person would say "yes" and everyone would laugh

So "OMG your a racist" is not an insult to me
