heres a render of the tei fighter, there not textured yet but ill get em textured soon.

heres the tei intorceptor

bolth models where made so the skin would bring out any detail missing like mostly every thing so thats why thay might not look that great.
bolth be ME!

I was looking around the forums and I found the site URL:

<http://animefreeway.knkonline.net/starwars/index.shtml>

Maybe somebody might find it interesting to look at

Star Wars has a BIG!!!! following so be prepared for a lot of critics with a hell of a lot of stuff to say about models.

By the looks of this character model they have some experienced modellers:

But don't hold your breath, theres a lot of detail in Star Wars and many issues with the fans so it may be a while coming.

Well thats what I think anyways .

EDIT: Already found some bad news on the pictures page...

Quote:(crimson XI is my level edit guy, and he is nowhere to be found.)
Seems like there not happy.
