OR maybe he had a friend that wanted in
Maybe he thought you stunk
Maybe he thought you were a n00b
Maybe he was testing out the kick feature
maybe he decided to come to his senses and boot you out

No offense man but it's his server he can do whatever the hell he wants. Most likely he wanted a friend to join. It's also highly possibly that he just didn't like you, which is a good enough reason to kick you. You are playing in his server, whatever he says goes man.
