---

Shouldn't the discs be Yuri's Revenge? After all they are floating.

Infinintum i made then in 3ds max... there not just the lame disks...

On the green disc, it says: "lame disc".

Infinintif you look at the disk from the top it says game disk.... thats really odd

---

...

Freaky....

I suppose it's just the way 3DS Max tries to make it more realistic, the bottom of the G would be less viewable from that angle.

Try tilting your actual CD's to that angle maybe it will look the same.

I don't have those style discs so I can't check .
