They kicked everyone that were better than them on their server, which was pretty much the entire Renegade community.

I hope FUD doesn't come to Savage, but then again, if they do, World Leaders will set them straight.

You know, as a summation of my give-or-take 18 month tenure playing this game, I would like to say that I crushed my enemies, saw them driven before me, and heard the lamentation of their

or see them driven before me, but the sad fact is that you fatties have no women for me to hear the lamentations of. I will, however, concede that 2 out of 3 is not bad at all.

Ok now this guy is obvisly very insecure with him self. FATTY THIS FATTY THAT HAHHAHAH well for one thing not everyone who plays video games is a fat geek i am 95 pounds and popular at school and im sure lots of other people are like me and just play it for fun dont make assumsens i think because your so fixated on that topic that you your self are very incecure and are being something your not, get off it man thats just a stereotype you can play video games in your free time and not be a fat ass geek (p.s sriry to anyone i affend when i say fat ass and geek im only trying to prove a point)

Quote:Why would you want to trust a program like that to the fatties? (crimfat, blazefat, etc.) I

into your computer? Is it plausible that they just want to curb cheating in Renegade? Well sure, I you anyway.

once again pisses off the wrong people (Christ, it happens enough now. Seems every other day some part of that community is under attack from hackers, script kiddies, and what-have-you), and

dreaming. If they were able to find a way into that server, they could potentially either bring it

down, or get their hands on YOUR information. This seems a high price to pay because the fatties

Once again this guy is nothing but a bulling piece of scum that will end up working at Mcdonalds his entire life because no one wants to hire someone who is that judgementle and that much of a complete asshole. I certintly dont care if crimson and blazer and who ever it is your reffering to is over wieght niether of them have ever been inconsiderit to me or called me names like that, they both have helped trumendisly in the community to keep it together and provide us all with a better experience for renegade. Do you really think that they would use it as spywhere? Everyone knows who they are there real names and the city they live in it woulnt be hard to find them if they did and it wouldnt be all that hard to prove and they seem pretty damn smart so no thats not what they are doing. And tell me if we didnt have blazer ACK crimson ect who would make something to stop these cheating bastards??? What shape would the official forum be??? Where would we all report our n00bs too?? Where would we all be with out the hundreds of awsome maps ACK has made?? Im sure a lot of people feel the same way i do.

not know, today (September 23rd) is the 1-year anniversary of the first taskbot7 report going on the books. I feel it really stands as more of a symbol of the legacy I am leaving here.

OOO My what a legecy you leave. Its not a legecy its a memory where everyone will say "Look how big of an ass that guy was"

Quote: I firmly believe that you are all idiots and deserve to die.

YOU CAN GO STRAIT TO HELL. YOUR IGNORICE ASTOUNDS ME. GOOD RIDENCE.

Myself, along with the core members of FUD(Priest, Java, Task, probably Mak) are going to Halo when it comes out in a week's time.

w00t see you there! lmao i get to keep argueing with java on a new game wo0t

Are you guys actually going to be a real clan on halo or are you going to do what you did on renegade and only play regular servers?

Mak is a great guy, probably the best FUD server owner, everytime he liked to play with me, and everytime he was on, he was unbanning me, so I could play on the server with him.

Well, if you don't care about them, why the fuck is there a topic about them and multiple replies?

Just let it die... They'll be nothing eventually.

I started the thread just to show that I don't give a shit, and I'm not going to delete their stupid post. Of course I will lock or delete it in a day or two because it's NOT a n00b story.

Like playing Devil's advocate?

Words cannot express my grief at FUD's passing.

At least words I can say here.

Oh yeah, Buddha is a fattie. What about that little problem Tasktard?
