Ummm didn't we have a talk before about the matrix sig? As I explained I think those animated sig movies are cool, but not everyone wants to download over a megabyte of data everytime they read a thread with your post in it.

No they aren't over 1 meg. They are 828K. I shall quote again from the FAQ/Rules thread at <http://www.n00bstories.com/renforums/viewtopic.php?t=19>

Signature Image Size - Please keep them small as signature images should be. In other words it shouldnt be bigger than a few lines of text, or so wide that it stretches the forum page beyond its normal bounds. Just keep in mind that by definition a "signature" is a small signoff message. Anything larger than 3-4 lines of text stops becoming a sig and turns into "that big picture at the end of the post". Please also make sure that your signature image, if animated, is not over approximately 250K. This is to ensure that the modem users (yes, everyone doesn't have broadband) don't have any problems.

I'm not trying to be a dick here. Not everyone here is on a broadband connection and your sig is causing them problems. As I said I love the Matrix, and the mini movies are cool, but that does not allow me to give you any special privledges, especially since you are openly defying one of the very few rules we have in place here (and all of the rules are for the benefit of everyone).

LOL. Common sense would tell you that if there is a limit of 250K on animated sigs, that doesn't mean you can have multiple ones...or else you could just have 100 of them and have a whole movie

Hehehe... e-mail is really useful. I live in the UK... and if I had to phone Las Vegas every time I needed to talk to people it could cost a lot.

MSN is useful too... I was talking to Devinoch on there earlier. I think I've been talking to the team more since the consolidation than when Westwood was creating the best of the best.

Hey Lurker. Yeah, we're as cool as we've ever been.

I remember you from the beta, and the sheer number of times I caught you in my cross-hairs.  
:twisted:

I'll try to post in the forums from time to time, but I'm pretty busy right now. Between wrapping up my relationship with EA & searching for a new job. And serious amounts of slack. Unfortunately, I don't have any good, recent picks of me at Westwood, but I might be able to dig up a pic or two from when I went on vacation to the Grand Canyon back in December.

I posted some of the nicer scenery pics here (the pics are clickable, btw):

<http://www.jaj.com/pics.php?PICTASK=FULLALBUM&ID=37>

And some from Zion here:

<http://www.jaj.com/pics.php?PICTASK=FULLALBUM&ID=39>

And for those interested, I post some ramblings and such here:

<http://www.jaj.com/space/gunderwood/>

The most updated page is my Sony Laptop Linux page. Sexy stuff, eh?

I'll try to get a recent pic to Cabal for him to post.

Thanks Greg. If you or any of the other Westwood guys have any useful photos of you or Westwood then just e-mail them to me and I'll post them in the Westwood Gallery

Those are great photos of the Grand Canyon. I visited the Grand Canyon just after visiting Vegas and Westwood in 2001. It was really great. If anybody visits Grand Canyon Village...then make sure you get a flight over the canyon from the airport there - it was amazing. Grand Canyon Airline I think we used.... or something like that.

I will never forget the restaurant at Lake Mead Marina either... it was a really friendly place and the food was brilliant. Just watch out for the fish in the lake pestering you for food all the time (no kidding - we have the photos).
