No... n00bstories has had their own forums for a very long time. Over a year. These forums aren't the n00bstories forums, they just happen to be on the same server and run by the same person.

What's that supposed to mean?? I never saw it before, and I was wondering if I was missing something, I hadn't ever seen it before, I never saw a single topic on it at all. Is it so hard to believe, I hadn't seen it before . . .
