ok, fine

i am no longer posting here because crimson refuses to even show the slightest bit of respect towards her fellow community MEMBERS, she decided today to publicly bash me in public, so i

no longer feel the need to help support her forums by posting here, but, i will still help you guys by offering you "asylum" on my forums and answering all your questions there.

Okay so there was a disagreement that happened. Lets throw some water on the fire instead of gasoline, and just let this die down okay? You two are NOT going to end your friendship over a temporary one day disagreement! If nothing else just avoid talking about it for a few days, I'm sure that after everyone has had some sleep/sex/food/whatever, things won't seem so bad.

Don't worry, I'm not letting him end it that easily. I felt our friendship was strong enough to disagree with one of his decisions. I apologize for that mistake.

I think the issue is that his "decision" was blown out of proportion, and rash judgements were made, seemingly my fault because of relaying things he told me. That combined with apparently today being "one of those days" for more than a few people...just makes up for a bad situation.

Fortunately, I think this is just "one of those days" and this matter will solve itself with some time.

At school today, it seemed link one of those days, nothing goes right, I'm late for Litterarture, don't do well on a quiz, the classes seem to take 5x longer than normal, my idea for an argument the class had in History was not accepted ETC.

You just don't get it, a game of renegade wouldn't solve this, now comprehend, and understand that there is a life outside of these forums/game.
