Well apparently all posts on the old forum on westwood.com  
seemed to be lost.  
I also lost alot of information..

Like urls file list.,, Renegade HEader files etc.

At the moment i need a complete file list, of skins.  
Just the names.

Dosent matter if its sorted, or not.  
As long as its a complete list.

Or is there anyone that has a complete SKIN-PACK  
with Units and vehecles.

w\_xxxxxxx.dds = Wepon Skins  
hud\_cnc\_xx.dds = Huds Skins
