I'm sorry to have to start a thread but I have a question for Taximes. I PM'ed you twice but I didn't get a reply so I can only assume it didn't get through or you don't want to reply.

I just wanted to ask you if it was okay if I used the two alternative textures you made for Mobius and Kane in my next map?

anything like that... I was implying that he could at least answer him.

If a moderator had something to say on the subject, they would post it in the thread, not edit your post.

I've seen that happen many times on this board. Instead of editing out the post and replying as to what was wrong with the post, he edited out the post and added the message into the post, accomplishes the same thing.

You took it the wrong way. PsychoArmy\Pathetic\whatever else he goes by was trying to tell Sanada to use your stuff without permission, something along the lines of "wtf ever just do it if they dont give u permission use it newayz," so I edited it out.

I will not tolerate people encouraging others to be thieves.

I've seen it as well, but if there was a problem with a post, the moderator would've edited the actual post and not someone's reply to it.

post off as if it had been edited by a moderator.
