Since the evil mods at EA erased my post, I'm reinstating the "my cd REALLY exploded, I HAVE PROOF" post.

http://www.beaconpedestal.com/explode/ <--- for the proof

You should make a whole game out of that. It could randomly chose a destrucution method. Ion, nuke, c-4 (see a timed stick to it then boom), chaingun, just plain crack, and volting to melted.

What? your cd said boom?

Oh my...

What happened to your cd drive? Did it say 'boom' too? I like big explosions!

Blazer, you know that new GIF you have in your Sig?

Is it the best thing to have the URL of the place you are on? I would have thought that people would have known it to see it....
