File open failed: c:/gmax/ ect ect

please help it only happened all of a sudden , i dunno whats wrong with it!!!

it wont open

can any1 change it back into gmax for me?

if you haven't deleted it yet try Merging it into a new file.

Subject: yep i tried that..

Try merging the file into a new gmax file. Also check the thread at the top of this forum to make sure you have the microsoft patch to fix the file corruption.
