I'd write one, except I don't have enough information to write one. The only stuff I have is the WestWood Resources and the vehicle boning one that has mistakes in.

I managed to bone a 4 wheeled vehicle but it didn't work properly, the wheels were hovering from the body and when I tried to do a bike, that didn't work. The wheels seem to turn on the z axis in LevelEdit whenever i've done a vehicle.
