Tonight at 7pm I will be hosting a 32 player passworded server where we will be picking teams. Two captains will be chosen, and manual teaming will be on. If you're interested in playng in this game, the game will go up at 7 o'clock. Look for a game hosted by RavenUSC3 or NickNolte tonight, and page whichever for the password. From 7:00 until 7:30 we will be picking teams and getting things set up. If you have teamspeak, we will be using that and we can get you set up during the first 30 minute game as well. At 7:30 the next game will begin with the picked teams and we'll be playing. We're hoping for a 16v16. If interested you can wait until 7 to look for the game or post here with any questions, or find me on wol on the usa server under the name RavenUSC3 or NickNolte.

This sounds like a really great server and very organised this should be something of a great game I hope to be there...

We could use more hosts like you...

But please be strict (within fair judgment) a couple of n00b's could totally ruin everbodys fun (nothing changed there then).

Eastern time zone.-5GST.At least thats what he said in the other thread.

Subject: Pickup Game Tonight - Picking teams
Posted by Raven on Fri, 28 Feb 2003 18:47:02 GMT

7pm eastern time. The game will either be hosted by the name RavenUSC3 or NickNolte. Both are me. You'll need to page me for the password either just before the game or close to it. I don't even know what I'll make it yet because I'm not hosting it yet. I have a T3 server so it should be good. We're hoping to get like 16v16. Once we get enough in, I'll select two captains, I won't be one of them.

No fan maps. If you've ever played on the 54 player server, then you know who is hosting. Thats my server that I host, the 54 player server. Usually it has no time limit but there will be time limits tonight, probably 30 minutes.

Also, we are going to try to use teamspeak. If you don't have it, that's fine, but we're trying to get like a 16v16 with everyone in teamspeak. Go to http://www.teamspeak.org if you'd like to get it. You can get the teamspeak address once you join the server.

I will probably be there.

Should be fun.

If you plan to be there, get Teamspeak 2, from www.teamspeak.org. Even if you don't have a mic, it's very useful to listen to what others a saying. It's a small download and a great voice comm program.

Edit: Damnit Raven and your 120 wpm.

Also, should it happen that we get more than expected and the game is full, then just keep paging me and i'll write your name down and put you on the waiting list. At the end of a game I may

choose to ask those who were at the bottom of the losing team to switch out with others. I may or may not do this, since those who got their first should have the right to play. But it's possible. Plus there's always someone who wants to cheat or is causing problems that may get thrown out, so, i'll page you back if it's time for you to come in once we're full.

It will be undedicated, but I'm on a T3 line capable of hosting in excess of 60. I've hosted 32 undedicated many times before and guys still call it the best server on renegade, so it should be ok. Should it happen that it's not, I will take it down and make it dedicated. It should be ok though. So be ready about 6:45 or so and look for me online letting me know of your interest. It will go up at 7, passworded. We'd really like for everyone to have teamspeak. From 7 to 730 will be picking teams and getting everyone set up on teamspeak, so all you need to do for now is just download it. You don't have to have a mic either, because it's not really neccessary for 16 people to be talking at once during a game.

There went and got your teamspeak.have no idea how to use it but...

And try to use an edit button in the future.

That's why we have the 30 minute setup time in the first map. We'll explain all that. It's actually very easy to use.

Man..... that server is T3H 0wnage
No lag for me even when it's full, and i'm from europe...
And camping, waiting for time to run out is not an option anymore
You really have to teamwork to kill the other teams base

View Forum Message <> Reply to Message

Why didn't you just page me man? That's something to do with the firewall, it's not actually 999 ping. We had about 24 in there. Would have had more but they went afk or left right before the game. LtPatch was one captain and DeathFC was the other. We went 1-1.

I was there but didn't get teamspeak going until the second game. It was fun and I hope we can do this again now that I have figured out Teamspeak!!

Are there other servers and games that use teamspeak?
