YAY!!! New version is out.

It has:

- * a full-text search engine with a rating system,
- * it can search the FAQ and Tutorial database to help you find things easier.
- * An anonymous mail sending to Tutorial authors has been added to protect their privacy, and a more 'complete' style without using frames.
- * Also a comment feature and HUGE changes in code.

Its was a hard pice of code, and if you like it or not I like it

If you have any tutorials you wanted to see on at renhelp.co.uk, contact me and it will be added, be sure

Visit: <http://renhelp.co.uk>

Ctrl + F5 will fix it, your browser is loading the cache if you are on about two frames coming up.

If it is something else then post a screen shot so we can see what you mean.
