Hello Guys,

As you can tell I'am new to this forum but not new to the community I have been gaming for about 25 1/2 + yrs now. Currently 39 yrs of age. The point is. I use to have a BR Serial Number when I use to keep servers up alot awhile go. But then I quite and now that I wanna come back I have reinstalled , Net Framework , BR , FDS. Now I'am stuck! I HAVE LOST MY serial number that I need to put in under "FDS Config" in BR. I have e-mailed Westwood - a.k.a EA GAMES. They havent helped me at all. Is there anyway in receiving a serial number for BR anymore. A way to use BR without this serial?

Well looks like Dante going have to change the commands for BR! I contacted EA Tech Support. Since they took over and bot out Westwood, the say they havent been giving out any more serial numbers and getting one is impossible. SO FOR NOW BR IS DEAD untill they change the

command were we require to enter serial number soooo good lucks. Goina e-mail dante next to see if he can change the command protocall or something!
