I want to begin making maps for my mods but I have no idea how

Anyone know of a completely basic map tutorial? So far I made a sandy plane and textured it good enough but I can't import it to leveledit. I forgot how. And how do you get vehicles to spawn when purchased? I have the building controller but they just spawn in the middle of the map what else do I need?

Ah thanks.

But I couldnt find help for this one thing. How do I make vehicles come out of my wf and airstrip?

And how do I make them come out somewhere completely different?

I got a nice little map going. Its just flat nhow but I might add more later

Well my map may look like crap to most people but I love it. I want vehicles in it but I dont know

how.

Someone please tell me how to put vehicles in. Without a War factory.

I already have the building controller but they spawn under the map. How do I make them spawn elsewhere?

FerhagoWell ok I need to make a carmaker. But I cant. It says ctrl p but that doesnt work
Try this one: http://renhelp.co.uk/?tut=11

To create carmaker simplyselect the WF / Strip controler and Press STRG + P as mentioned... should work
