Greetings Renegade fans, how are you all doing? Well anyways I will simply get to the point of my post. I uninstalled Renegade a few months back because of the flow of cheaters. I was wondering if these cheats have been stopped at all. I really want to start playing this game again, but if there remains to be cheaters, it simply takes the fun out of it. Well my question has been asked, so any answers?

ALL games have cheats. Cheating cannot be stopped, if there are people who really want to cheat, they will find a way.
