I get it too and I can't access the avatar I got reserved for me either. Nothing to do with post counts, check mine. I was able to do it ages ago but not now.

Could Crimson or another admin please shed some light on this?

I still can't access the avatar pages. When I click any sections in the list, I get the "Invalid session" message. Maybe there's some error in the code.

Happens to me, too. Hmm.

I'm using IE 6..
