---

i welded together some door ways to a moutain but i cant export now because they only have 1 pass and the mountain has 2 pass

I made a back-up b4 i welded the doorways onto the mountain....what should i do to export it??

- a) don't weld them togeter
  - b) add a second pass to the other material
  - c) detach the vertivec with the 2pass before exporting
-
