There are some things some people might agree with in there, but that isn't the point.

This guy is an ultimate fucktard, who believes that he was chosen to do God's will. He actually plans on running for office and spreading his influence.

What really scares me is that he lives 40 miles away from me...

DO NOT let your children near one of these vile monsters! Read the Fag Facts page to get more insight into the sexual habits of homosexuals and others of their ilk.

Maybe people want to be gay/lesbians. It isn't right to put someone in a mental institute just because there gay/lesbians.

Also, "vile monsters", some people are born like that. Ain't their fault.

Though I agree homosexuality (That includes lesbians. No, it DOESN'T turn me on) and pornography is wrong, it shouldn't be forced upon by the government. The government already bosses us around too much/

Sad the civil/political law(Whatever the powerholders decide, Majority/mob rule) and facism ("Right and wrong are matters of opinion", Do whatever is nessasary, etc.) has nearly destroyed America. Political views with no principle :rolleyes:

I refer to the two main laws of civilization (As defined by Richard Maybury):

- 1) Do all you have agreed to do
 - 2) Do not encroah on other person(s) or thier property

Well I don't agree with that because homo's are not mentally ill at all. Its just how they are. They are perfectly sane, just there hormones or whatever work differently. I don't know the technical terms for it, but i'd HATE to throw a sane person into a mental asylum.

Just by reading the title, "Anti-porn", I would kinda agree because there needs to be restrictions on porn etc. Porn spam in mailbox everyday, go to sites with no visible ads on them just to find that a porn toolbar is being installed without you knowing.

But other than that, i TOTALLY agree that this guy IS A TRUE FUCKTARD!!!.

Inprisonment is tougher. And i'd say more humane. While in prison, prisoners can read, learn a trade, rehabilitate themselves.....

Vampirism?

HAHAHAHAHAHAHA... Soooo... Anti-Porn Guy is back. He changed his website I see. I remember him from 4 years ago when he first create that website. He took down the website for many reasons. One reason was because he kept recieving Death threats from people.

I remember once he came into a Geocities Chatroom (Back before yahoo bought them off) and was advertising his website. There was so many people making fun of him and calling him names. He couldn't take it and told everyone to Fuck off and left. It was so funny. I think that was the first time I ever heard of him too.

Anyway, lying or not, he's still making us look bad.

IRON-FARTNazi, not communist. Communists have everyone work for the benefit of the state, Nazi is facism, which exclude certain groups/classes of people to protect the government.

Nazi's in Germany used to burn books. This guy wants the Theory of Evolution eradicated from public schools.

Nazism is kind of a mix of socialism and facism, the two extremes of right and left into one. Nazi means you're a member of the National Socialist German Workers Party.

Facism is simply saying "whatever works" and "majority rules." Whatever seems nessasary, right and wrong are opinions, etc.

Even though I don't believe in evolution, does not mean I want books about it burned. (More evidence that this guy is trying to make us look bad) True or false, evolution is good to learn whether you think it's true or not. Evolution is a theory, and educated guess, and creation is a belief. And to be honest they're both pretty rational to me.

I think the guy's a complete whack job with his head so far up his ass that he can't see which country he's living in. He needs to cool his head off with some nice liquid nitrogen, and give it a few nice hard bonks with a hammer. Followed shortly by a rabid skunk taking a whizz on his shoes.

It's a damn shame that asswipes like him exist; I'm fully in favor of a bastard hunting season with him as the prime target.

That said, unfortunately he DOES live in the US, and because of that his views ARE constitutionally protected. He can say whatever he damn well pleases...unless he starts infringing upon other peoples' rights as American citizens. Until then, he can go on ranting and raving about the "corruption" of American society, and anyone else can go right on saying that he's a sexist, racist, anti-atheist, over-modest, pompous ass.

The Supreme Court would have an absolute field day with this twerp, because if any of his crap ever got driven through, it would be struck down instantaneously because of a little document called the Bill of Rights. Most of it would get hung up on the first amendment(such as the dress code and the ban on tattooing), but other things would get snagged by right to privacy and other amendments.

In conclusion, I disagree with almost everything he said. He may go on spouting his neo-puritan crap as long as he wishes. That is all.
