The first one looks like it's been through PhotoShop. The stack of beers on his head casts a shadow that is the same level, going straight up on the wall which at that point is around 3-4 feet away from those beer cans.

Hehehehehe... that brings back memories when me and some of my friends took one of our passout buddies and drag him on top of one of his roof. Man it was funny to see his face in the morning. :twisted:

Well, obviously, the camera flash made that shadow.

That is why I didn't drink. I preferred to play "Fuck With the Drunk". A very fun game for the designated driver.

When I was in college, I was at a Frat Party when this chick showed up. She was the BIGGEST F'n "Ct" BITCH you could ever meet. She was a hottie, and she knew it. Well she drank till she passed out. We all (about 40 of us guys and gals) shaved her head. They had a picture of some of us taking turns with the razor. This chick got a hold of the picture and all of us in the shots got \$250 disorderly conduct tickets. It was worth it.

note: I think most of you can figure out what "Ct" means. I have only used that word on 3 occasions, and prefer not to, unless it is warrented.

Lol... That stunt would have been perfect if you wouldn't have been stupid enough to give her the evidence she needed to give you that \$250 fine. :rolleyes:

I didn't. Someone else took the pictures. Somehow she got them.

Remind him it isn't smart to take pictures of the person who did the crime, unless you want to get caught. Take before/after pictures of her hair being cut (should have taken pictures of her topless before you started, pass them around College, and provide links to everyone here of course).
