OK, I want to start up another large server. But, I am already shelling out $250+ a month on servers, so I'm hoping that for this one, some of you all might want to help out.

Now this isn't going to be some fly-by-night operation that some people have done where they shut down the server after the first month or two. I have the money to pay the whole cost myself if I had to, I just don't WANT to...

The way The Pits is doing things is great. I will not only offer full disclosure of funds received and spent to those who want to help pitch in, moderator access and whatnot, but also Premium Account access on n00bstories for a long time as well. (and yes, that will have more meaning very very soon)

So, please PM me here, contact me in IRC, or email crimson@n00bstories.com if you're interested. Thanks.

View Forum Message <> Reply to Message

What kind of size did you intend on it being?

And I know lots of you will love 52+ servers, but the renegade maps were never made for games that large. Still, it doesn't matter.

I'm shooting for the dual 2.4 Xeon processor system. I can run two FDS with like 32 players on each on that.

Wait and your wanting us to pay how much a month?

Server Matrix, dual 2.4 Xeons, but yet, only 1000gb BW

Server Matrix, dual 2.4 Xeons, but yet, only 1000gb BW

Yeah, I know I'll have to keep an eye on that. I wonder if Server Matrix will let me divide my 2x1000GB between the servers... the other one only used like 600GB last month.

i would not be able to help pay for the server if it more then the premuim member cost becuase
#1 i dont have a top of the range PC with a super dupa GFX card able to suppoort 54 players on one screen
#2 54 players is a bit to much.. can hardly sneak into a base with 32 players.. damn 54
#3 it will lag if the sfps is gonna be as bad as the curent server O_O

I would help if I could, but I currently have no money, at all. Maybe later on down the road(a few months) i'll be able to help, if you still need it.

I'm hoping you don't go any higher than 32 though. 2 servers that size would be great. Good luck

No, I'm not interested in running a super-large server. Besides, Renegade FDS won't use both processors in a dual-processor system, but two FDSes can be run each on their own processor and have no problem.

Donations towards this server count as donations for premium account access.

It looks like if just a couple more people pitch in, I can get the dual Xeon box for $179 USD per month. Since the FDS doesn't use dual processors, that means 2 FDS on one box. I have no interest in running a superlarge server anyway.

If you have dual xeon 2.4 ghz processors on one machine, it is possible to run 2 FDS's on that one machine but tell each to use a different processor.

(on windows XP PRO, and maybe W2K pro)

TheMouseI'll donate 20 dollars. is there a particular account I should donate to or something?

She needs a steady cash flow from donators each month, not just once

hmm, from what I understand, any amount of money would be appreciated. Although a steady flow would be nicer...

anyway, I just sent out my donation($25 canadian).

I am planning on getting the $179 a month server for myself. I was hoping for the duel processor or the 3ghz with ht. The only things I want to run are: Teamspeak/Ventrillo for my clan, a Public Renegade FDS and maybe a CoD server. I know of one Renegade server run off a servermatrix.com server (+BR+ Clan Servers) which is paid for by Ukbadb0y and he has remote desktop control over the server, and has had bandwidth tests reporting that it gets about 14mbps up and 19mbps down, so running 2 Ren GFS 1 ts for 20 people and 1 16 person CoD wouldnt use all the processing power of the server, and I am sure it wouldnt scrape the surface of 14mbps. I would be willing to let you have a FDS on the server when I purchase it in exchange for some help setting up BR for my Renegade public server. Naturally you would have remote access incase something goes wrong in your server etc. And I would ask if you could unban me from the n00bstories.com forums, lol. Since this will be for my Clan Voice com and my Clans Renegade Public Server and my CoD clan server, chances are I would pay for the whole thing for as long as I have my job and can afford it, but it shouldnt be a big problem. If it sounds like a not so bad deal just reply or email me @ sean_fahey1@hotmail.com.

Guess I should throw some cash your way sometime.

Subject: n00bstories.com wants a big-ass server... :)
Posted by Smasher9a on Thu, 08 Jan 2004 13:46:21 GMT

may not sound like much but i could put $10 or $15 US in each month, i would put more but i am also commited to donating to fubar and i dont have a steddy cash flow myself atm

Anyway i hope it helps with your new plans

Subject: n00bstories.com wants a big-ass server... :)
Posted by Crimson on Thu, 08 Jan 2004 17:20:48 GMT

Yes, I am just about there for getting a dual Xeon. Thanks, guys. Any money leftover will roll the the next month to cover those who aren't able to contribute.

I've seen cars for that price

Subject: n00bstories.com wants a big-ass server... :)
Posted by Alkaline on Sun, 11 Jan 2004 00:03:34 GMT

crimson, how are you paying 250+ a month? I thought you got the 99 dollar celeron 2.4ghz server from server matrix?

Subject: n00bstories.com wants a big-ass server... :)
Posted by Crimson on Sun, 11 Jan 2004 00:38:59 GMT

My web server is with a different provider, and therefore costs more. I'd move, but he absorbs the cost of my DDoS attacks and therefore I stay a customer so that one day he'll make back his costs.
