I'm looking for four maps where I need the .lvl file

C&C_City_Flying.lvl
C&C_Walls_Flying.lvl
C&C_Glacier.lvl
C&C_Glacier_Flying.lvl

Thx,
TimeFX

Glacier and Glacier_Flying are property of ACK and I don't think he would want anyone to have them just to tinker with them.

You can make the terrain for Glacier Flying in Level Edit by clicking "make" on the terrain preset. That is fine if you are looking at it for research purposes. You need permission from the author before you make a map with the terrain though.

I don't give out anything pertaining to levels unless I'm sure it'll be used properly.

I don't know you, don't know what your intentions are, so I'm not going to give you C&C_Glacier.lvl or C&C_Glacier_Flying.lvl

Sorry. I am the author of all the Glacier levels and will not release them unless something

happens that changes my mind.

Ah I thought you only did the GlacierTS map and that normal Glacier is from WW.
But I still need City/Walls_Flying

All three versions of Glacier are mine. Check your Renegade\Data directory for a file called C&C_Glacier_Flying.txt, it'll show you that what I am saying is true.
