i don't rtember suin an Orca in SP .. i kinda stop playing after mission like 5

MP Orca's are in anymap with _FLYING at the end, ie Streets, Walls. Air is to over rattted .. and morons stand still exspecting me to only use my chaingun ... its funny when they start moving after the 3rd missle and 2/3 of thier life is gone.

I like to think im a god in the air (as long as strong infantry are around) and a god on Foot, unless its arange battle me VS Tank/Snipe .. lol.

I've finished SP...three times lol. No Orcas (that you can get in) except for SP cheats. There are ways to mess with your skirmish maps. You can delete Skirmish00, change the .ini file, or download little programs to help. Flying maps other than fan-created maps are City_Flying, Walls_Flying, Glacier_Flying. (Straight off the top of my head).

Oh, and always aim for the head in MP. Even if you keep missing, three shots are more effective than 5 to the body

Um people maps wit flying at the end arent the only maps wit helicopters. Any map that someone makes and they make flying vechs has flyinh vechs in it.... It DOESN'T have to have FLYING at the end of it
